Code Review

EDUCATION

(Student) Universidad del Valle de Guatemala
2017 - PRESENT
Currently studying for "Licenciatura en Ingieniería en Ciencias de la Computación y Tecnologías de la Información."

Colegio Decroly Americano
2010 - 2016
Fluent in the English language thanks to very strict regulations in his high school's teaching system. Had American and Canadian teachers.

EXPERIENCES

Esserman [Developer]
2021– Present
Full Stack developer in Esserman. Worked with Mobile development and JavaScript-based backend. Has managed Database migrations too. Experiences with React Native/Vue Native and MySQL.

Universidad Regional de Guatemala [Backend Dev, API Dev]
2020–2021
Backend developer with experiences in AWS (Amazon Web Services). Among most used frameworks are: Laravel (PHP), ExpressJS (JavaScript), MySQL and PostgreSQL. Other experiences in the backend include bank communication and certificate management.

Universidad Regional de Guatemala [Desktop Apps Developer]
2020–2021
Designer and developer of Desktop Apps for ease-of-access and special database interaction using Python, C++, C, C#, and others. Most apps developed were UI-less terminal-based applications.

Grupo Macrina [Organizer and Salesman]
2019–2020
Database management and organizer of product shipment.

ABILITIES

Linux User
Ability to develop in Linux-based environments. Specialized on systems based on Arch but has experiences with Debian-based Linux distributions.

Teamwork-Focused Development
SCRUM-Based developer. Likes specific responsibility-management and specifications.
